April 21st-22nd, 2009
9AM to 4PM
University of Denver

Rocky Mountain IPv6 Summit is sponsored by CRISP under NSF Grant No. 0416969.

The Rocky Mountain IPv6 Task Force (RMv6TF) is hosting its second annual IPv6 Technology Conference on April 21-22, 2009 at the University of Denver (DU) Sturm Hall Davis Auditorium. We would like to extend this invitation for you and your organization to join us.

Why Attend:

Do you have a government mandate or business requirement that is driving your IPv6 transition?
Does your organization have plans to use Linux, or Vista/Server 2008?
Have you always wondered what IPv6 is but were afraid to ask?

The transition to IPv6 has already begun and its completion is inevitable. We want you to be ahead of these technology trends rather than reacting after the ball is already rolling. You need to know more about IPv6 to be able to understand how the powerful wave will transform communications over the next 20 years.

What You Will Get:

FREE two-day educational event - one entire day of tutorials
FREE lunch and refreshments provided
Find out what IPv6 is all about and learn about the benefits of using IPv6
Learn about IPv6 technology from the experts
Gain valuable information to prepare you and your organization for this new wave of Internet innovation
